PM3

This model is capable of deep engraving on plastic and metal materials. It is a P type series model equipped with a motor and spindle. This is the most popular general purpose model in the P series featuring low price and excellent all-round performance.

The PM-3 has a very wide application range extending from personal accessories to machinery components, display plaques for electrical equipment, sign boards in hotels and stores, key holders, lighters, watches and so on.

By fitting the diamond point attachment (POINTS) this machine can simulate the effect of the smooth diamond engraving performance as the P model. The PM-3 is extremely easy to operate, even inexperienced workers, children and so on can engrave attractive letters, marks etc. on all types of objects.
